

WTIP YOUTH RADIO PROJECT APPLICATION

Volunteers are the heart and soul of Cook County Community Radio, and our youth volunteers are an important part of that. Through the WTIP Youth Radio Project, you can be a part of this developing public radio station by contributing your talent, energy and time. Your involvement with North Shore Radio will provide a unique opportunity to learn the craft of radio while allowing you to expand your creative abilities! WTIP Youth Radio producers take part in a weekly on-air program featuring stories, interviews and commentaries of local youth. Whether on-air or off, there are plenty of opportunities to get involved!
